Approximately 90 members and their wives, visitors and wives, sat down to a banquet in the basement of Redeemer Lutheran church last Thursday evening to celebrate the 10th charter night of the Didsbury Lions Club.

Lion Howard Halliday was chairman for the evening and kept things rolling in good order. Visitors were welcomed by the chairman and Lion H. Lynch-Staunton gave a history of the 10 years the club has been active and accomplishments during that time. (We hope to make a more detailed report of this in our next issue.)

Presentation of 10-year buttons was made to the following charter members: Ed Ford, Howard Halliday, George Law, H. Lynch-Staunton, Tom Morris, Bill McFarquhar, Art Reiber, Clint Reiber, Ed Wiggins and Ernie Clarke. Another 10-year member, Sam Krueger, was also present. Lion Art Reiber gave the toast to the ladies, which was responded to by Lones Harriet Lynch-Staunton. Following presentations and talks by district governors, the group moved from the church to the school auditorium where a very interesting display of tumbling was given by Miss Lena and her pupils and entertainment provided by Lion Jack Friedenberg and Lion Hugh Campbell of Calgary.

Ramblers End Season With Banquet And Presentations

Didsbury Ramblers wound their 1954-55 season up on Tuesday, March 1 with a banquet in the Lions hall, attended by players and their wives and members of the executive and their wives.

Highlight of the evening was the awarding of annual trophies for the season. Most valuable to the team, the player scoring the most points and the player receiving the least number of penalties. The first mentioned, the Grand View trophy, was presented to forward Jack Smith, who also received the most points award. Trey Morgan, a two-time winner received the most points award. He received only one penalty during the season and that was in an exhibition game, which did not count in the standings.

All trophies were donated by Mrs. Joyce Mullen. No 1 hockey fan, and she was on hand to make the presentations.

The banquet, prepared by players and executive members' wives, was of the best and proved a fitting end to a season which we still think was one of our better ones.

This officer reviewed the final statistics this week for the regular schedule of the Central Alberta Hockey League and it is more than interesting to note that Didsbury Ramblers were eighth place in the first six in the scoring race. Olds had to reach to ninth place to get a player in the picture and Red Deer waited until the 16th slot before posting a name on the score card.

Leadership . . .

Any humbuck can be a leader when things are going well. The test of leadership comes when there are serious difficulties to be overcome. The men who direct the affairs of organized labor in Canada have been undergoing such a test for several months now, and most of them have been pitilessly exposed for what they are: not leaders, at all, but frightened little men with sour, closed little minds. There are a few who can be truly called labor leaders, who are more interested in the well-being of the people who make up their organization than in considering their own position. These are the few who are not afraid to speak out, but their quiet voices are drowned out by the hysterical gibbering of the sycophants of class hatred.

One of the most recent demonstrations of self-exposure was given just a couple of weeks ago by George Burt, Canadian director of the United Auto Workers. Last year was "tough on unions," he said, because of employers who "traitorously" exploited unemployment, judges who broke the law, newspapers that told half-truths and governments that ignored the demands of "labor." "Profit," he said, "has been given a half down through the years which should be torn off, and it should be exposed for exactly what it is—a selfish and undemocratic system."

Mr. Burt had nothing to say about the factors that have made Canada a high-cost country—nothing about the effect of wages and taxes on the prices of manufactured products, nothing about the squeeze put on farmers by industrial costs, nothing about the dismal failure of the governments that have tried to eliminate competition, and profits in business, nothing about the loss to the economy in wages and production as a result of the 110-day strike by his own union in the Ford Motor Company's Ontario plants, and nothing about the time it will take the workers in plants to make up the financial loss they themselves suffered in the strike. All he could think about, apparently, was the hateful way in which governments, judges and employers conspired to keep people like himself from making a complete mess of the country.

Speeches like that of Mr. Burt's would be amusing, in the manner of slapstick, if the people making them had not managed to get themselves into positions of considerable power. Under the circumstances, it is not at all funny. The road along which these men are trying to push their unions leads only to disaster.

DIDSBURY — ALBERTA

Through The Study Window

By REV. C. C. ARMSTRONG

William Shakespeare, in one of his plays, commented to the effect that "He that hath no music in his soul. And is not moved by concourse of sweet sounds. Is fit for treasons, stratagems and spoils."

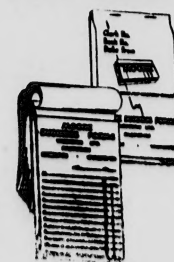

He was referring, of course, to musical appreciation rather than to musical creativity. A person can enjoy singing without being a singer, or instrumental music and yet not have the mastery of a Jew's Harp or mouth organ. But those who can both make melody and appreciate it in others are doubly blessed.

Amongst this select group is to be found a society known as the "Choral Belles." As the title implies, they belong exclusively to that section of humanity of whom the playwright also observed "Her voice was ever soft, gentle and low, an excellent thing in woman." Perhaps the quality of their music is judged by some to lack something of that strong and rugged character that comes with the addition of base (bass) or berrytone. pardon me, baritone, and tenor or tenor. A fit for such objections, say I. Here is a group that has something special to offer, and has offered it to appreciative groups on many different occasions. I have no hesitation in stating that I believe that every one will be well repaid by hearing the Choral Belles, on Friday the 11th, in the school auditorium.

While music has a universal appeal to everybody, it has a special appeal to Christian people, for in the Hebrew-Christian tradition, music has always had a prominent place. It is no accident that the Psalms and the New Testament are often printed together. In the Methodist church when a minister was ordained they gave him a leather-bound Bible, and in that same volume they included the Methodist Hymn Book, with all of its 936 hymns.

Congregations must have had quite a time wandering through the Hymn Book, for even if they learned one new hymn a month it would take them 18 years, eleven months and three extra Sundays in Leap Year to take course. Needless to say there was no great hullabaloo when someone discovered that only 935 were safely enfolded in earlier editions, one had gone astray. Just the same they made sure that the full number was to be found in later editions.

But I mustn't spend any more time marvelling at the hymnal, and return to the theme of the Choral Belles. Their program is neither too long nor too short, and has a fine variety of selections. The A.O.T.S. Club is to be congratulated on making this fine program available to the public at this time. The group would appreciate it very much if you attend yourself, and encourage and invite others to do likewise. The cost is reasonable, and it is hoped that the weather will be co-operative, on Friday the 11th, at 8:30 in the school auditorium. Tickets are available through A.O.T.S. members.

Notes From D.A.

By HOWARD J. FULCHER

This week I would like to mention a couple of insects which annually cause heavy losses to the producers of livestock. The first insect is the Warble Fly (Hill fly or Gadfly), these insects can be controlled. The flies do not bite or sting, but in laying their eggs on the legs or lower of the body worry and frighten animals. This causes the animals to do a lot of running and will through this cause reduce milk yields and poor weight gains. The grubs in the animals' rectum cause much discomfort and carcass grades, also cause unthriftiness and injury to the hides.

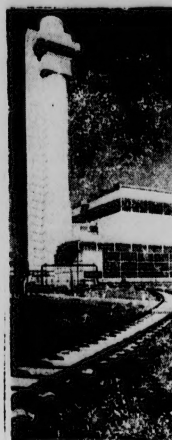

Control can be carried out on a community basis or individuals treated with commercial warble powder. In small herds of cattle, scrub and wash over the backs of the animals with a stiff brush, setting the powder well into the holes, for larger herds a power-sprayer at about 400-500 pounds pressure can be used. This treatment should begin early in March, when the holes in the hide are beginning to show continue treatment at 20 day intervals until no live grubs are present.

The other insect I wish to mention is lice, they are biting sucking insects causing irritation to the animals through sucking blood and crawling around. Animals rubbing results in loss of hair and lesions. The treatment is not difficult, there are a number of satisfactory D.D.T. rotenone preparations for their control available, three or four dustings about ten days apart is usually sufficient.

DISTRICT NEWS

In The Legislature

By DONALD F. SMITH
 EDMONTON — The first provincial deficit in several years in Alberta was announced in the legislature last Friday as Hon. C. E. Gerhart, the new provincial treasurer, brought in his budget calling for total spending of \$222,963,072 in the fiscal year beginning April 1.

More than \$18,000,000 more than the estimated spending for the current fiscal year, the expenditures include \$24,400,000 for education, \$56,511,875 for highways and \$23,111,000 for public health.

The actual deficit expected is \$2,500,000, but because of statutory appropriations of \$43,000,000 for municipal, rural power, government telephones and homestead loans, the government says it will have to take \$45,500,000 from surpluses built up in past years.

The budget had a strong theme of assistance to education as the government's 1955 answer to continued pleas of municipalities for greater outright assistance.

Total school grants are up \$11,000,000 at \$29,500,000 and include \$18,100,000 to be distributed as operation grants on a special formula: \$4,500,000 for capital construction costs and \$6,600,000 for a new school tax reduction subsidy grant.

To qualify for the subsidy grant, school boards will have to ask the municipality or county for less money than they did in 1954, and will have to keep down the rate for operational purposes to not more than 25 mills. If a board has to increase its requisition this year, the government is prepared to pay up to 50 per cent of any increase not exceeding five mills on current assessment.

A new policy, under which the provincial treasury will purchase school securities and charge low interest rates, is expected to see the school boards receive \$9,000,000 in loans this year and, the government hopes, no board will have to borrow on the open market.

While the expenditures for new highway construction are slightly lower than for the current fiscal year, grants for district highway and local roads are up \$1,300,000 for a total of \$7,925,000. The increase is all in a special contingency fund, presumably to be used to aid districts in special need.

In the field of health, major increases are \$1,200,000 for government contributions to prepaid medical insurance; \$1,436,000 in the per-patient-day grant to hospitals; and increases in the government contribution to the provincial-municipal hospitalization scheme.

Revenues are up from \$151,973,865 estimated for the current year to \$171,875,115 for 1955-56 and more than one-third of it will come from the revenue sources of the mines and minerals department.

Included in the \$68,000,000 this department expects to receive are these amounts: \$26,000,000 from the sale of oil and gas leases and relocations on crown lands; \$18,500,000 from oil and gas rentals and fees; and \$17,500,000 from royalties.

The provincial government also expects to receive \$34,100,000 from the rental of certain tax fields; \$10,500,000 from fuel oil tax and \$15,500,000 from liquor.

As announced earlier by the government, homesteaders are to receive assistance in breaking and clearing new land. Mr. Gerhart said Friday this will be done under a homestead lease revolving loan fund, which will begin at \$1,000,000. Loans will be restricted to a maximum of \$1,000 each and applications will be considered by a board to be appointed by the cabinet.

The increase in the spending of the highways department is the result of plans to do less new construction on main highways. The appropriation for bridge construction, however, is up \$500,000 at a total of \$5,000,000.

The total planned expenditures are \$4,500,000 to \$7,000,000 less than many were forecasting, but it is understood considerable last-minute juggling took place.

In connection with the use of accumulated surpluses, Mr. Gerhart said it would leave a reserve which is no greater than is needed to insure financial stability in the immediate future.

The A Capella Choir made its first Sacred Concert Tour this past weekend. They left on Friday afternoon and presented their program in Headley, Gimlet, Condon and Lacombe. They will be out on this type of work almost every week from now to the end of the semester.

The few students left on the campus last weekend were entertained in the home of Miss Eby on Friday night and by President and Mrs. Taylor on Sunday.

Miss Walsh spent the weekend in Calgary with friends.

This coming Sunday the student body will have complete charge of the Sunday school and the morning and evening services in the United Missionary church here. Roy Corless, a senior, is in charge of all school activities of this nature and has done a magnificent job this winter. If you can, come and here these talented young people as they take over these activities.

Mrs. Arthur Eby demonstrated the use of visual aid in Sunday School teaching for the class in religious education last Thursday. It was most instructive and useful.

Mr. Widmark, who has been on the sick list for a number of days, is back in his studio again, much to the satisfaction of his students in piano. We are glad that the siege of colds is subsiding, and those who have been incapacitated can net back to their class work.

On March 15, Tuesday, Rev. Brosky of Calgary, will demonstrate the Jewish Passover in the College Chapel. The service will begin at 11 a.m. This will be of great interest to all who study the Old Testament Scriptures.

WESTWARD HO CALF CLUB REGULAR MEETING

The Westward Ho Calf Club met at the home of Mr. J. Rock on Feb. 26th for their regular meeting. Because of the very cold weather, and the absence of the District Agriculturist no judging classes were held.

The meeting opened by repeating of the 4-H pledge. The roll call was read which was answered by seven members. The minutes of the last meeting were read. Arthur Knight they be adopted.

A. Knight then gave a very good report on the Hereford Breed and Sigurd Baustad then gave a good report on management of Beef Cattle.

The club then decided that we should wear crests on the back of our sweaters.

The club has purchased two little ornaments for Kathleen Grange and Barbara Ness for giving their toy animals to the club.

The social evening to be held at the Haumatten Hall on March 11th will be postponed for one week if the weather is too cold.

The next meeting will be held on the 26th of March at Mr. Baustad's.
